

Informe comparativo de una muestra de las mediciones de las estaciones hidrométricas de la región 30 que incluye los estados de Chiapas, Tabasco, Campeche, Yucatán y Quintana Roo

Miguel Angel Díaz Perera
Jorge Luis Capdepon Ballina
Gladys Iliana Berríos Calao
Edith Irene Sosa Sánchez
Cinthya del Carmen Pérez Lizcano

Los datos de las estaciones fueron proporcionados por la Comisión Nacional del Agua, gastos diarios desde 1940 hasta 2008. Para proceder a un proceso de validación y verificar la confiabilidad de los registros, se procedió a comparar día por día con Boletines hidrológicos que se lograron localizar en el Archivo Histórico del Agua. A continuación, se presenta una muestra determinada por la localización de estos boletines. Se marcó en amarillo los datos que tienen variaciones significativas, que al ser menores demuestra que tales datos son confiables para conformar la base de datos comprometida como parte del proyecto.
